ABSTRACT

The 1984 SUNY annual report presents major statistical tables that array four student characteristics: age group, sex, level (undergraduate/graduate), and load (full- and part-time). Part 1 contains summary data for the entire system and each institution within the system. For each of the headcount tables, there is a corresponding table providing percent distribution arrays of the headcount data. Part 2 contains headcount and percentage arrays of students by age group for each institution and institution type. Tables are provided for undergraduates, graduates, and first-time students by load. Part 3 contains summarized historical trend data for all students from fall 1978 through fall 1984. In addition, trend data are grouped into section by level (undergraduate/graduate/first-time), and each level has both headcount and percentage distributions for total, full-time, and part-time students. Additionally, age and sex trend data are displayed by level and load indexed to fall 1978. Two age groups are used to profile this trend data: those under 24 and those age 25 and over. Finally, tables show change and percent of change in the age and sex trends by level and load from fall 1979. (SW)

INTRODUCTION

This is the eleventh annual report published by the Central Staff Office of Institutional Research which provides comprehensive data on the age group and sex of students attending the State University.

The major tables included in this report array four fundamental student characteristics:

- Age Group
- Sex
- Level (Undergraduate/Graduate)
- Load (Full-time/Part-time)

The main body of this report is divided into five sections:

Part I	(Pages 1 - 166) - contains data for the entire system, as well as, each institution and institutional type. For each of the headcount tables in this section there is a corresponding table providing percent distribution arrays of the headcount data.
Part II	(Pages 167 - 210) - displays headcount and percentage arrays of students by age group for each institution and institution type. Tables are available for undergraduates, graduates and first-time students by load.
Part III	(Pages 211 - 306) - summarized historical trend data on all students from Fall 1978 through Fall 1984. The trend reports are grouped into sections by level (undergraduate/graduate/first-time). Each level has both headcount and percentage distributions for total, full-time and part-time students. The age and sex trend tables are not available for individual institutions, but are available for all standard institutional clusters.
Part IV	(Pages 307 - 339) displays age and sex trend by level and load indexed to Fall 1978. The data for this and the following section is divided into two age groups; those under 25, and 25 and over.
Part V	(Pages 340 - 372) displays change and percent of change in the age and sex trends by level and load from Fall 1979.

Part VI of the report contains a map locating the institutions of the State University, and a list of this office's publications.

We would like to thank those individuals on the campuses who are responsible for providing this office with timely and accurate data. The collection of this data required their extensive cooperation and continued effort. Our gratitude is also extended to this office's statistical staff of Mr. Spoor and Mses. Smith and Bossoni who were responsible for editing and verifying the data; the typing staff of Mses. Hart, Mazzone and Rings who prepared the final typescript and were responsible for the proper distribution of the publication.
